## Game Features

### Base Game

A **6-reel** and **5-row** slot with a horizontal Neko reel, featuring **2025** to **32 400** ways to win

### Frame Feature

The **Frame Feature** activates in both the main and **Free Spins** games, framing symbols on reels 2-5 in silver or gold, except for **SCATTER** and **WILD** symbols. Silver-framed symbols that are part of a winning combination turn gold, and those with gold frames transform into **WILDs** after participating in a win

## Golden Frame Event

The **Golden Frame Event**, occurring randomly in both main and **Free Spins** games, transforms symbols on reels 2-5 (excluding **WILD** and **SCATTER**) with heights of 2 to 4 into gold-framed ones. If these symbols contribute to a winning combination, they become **WILDs**

## Free Spins

The **Free Spins** trigger with at least 4 **SCATTERs**. During **Free Spins**, wins are boosted by a default  $\times 3$  multiplier.

Golden-framed symbols turning into **WILDs** gain additional multipliers ( $\times 2$ ,  $\times 3$ , or  $\times 4$ ) based on their height.

Symbols with golden frames that win become

**WILDs** with height-based multipliers:

- $2 \times 1$  symbols get  $\times 2$
- $3 \times 1$  symbols get  $\times 3$
- $4 \times 1$  symbols get  $\times 4$

If there are multiple **WILD** multipliers, they are multiplied together and then by the default  $\times 3$  multiplier, increasing the payout.
