

BLACKJACK BB

Release date: 04.04.2023

Step right up and join the exciting world of our newest online six-deck **Blackjack**! The goal is simple: get closer to 21 than the dealer without going over. Our six-deck Blackjack game offers you the chance to hit, stand, double or split your way to a winning hand. Remember, Aces count as either 1 or 11, face cards as 10, and number cards at their value. If you're lucky enough to be dealt an Ace and a ten-value card, you'll have Blackjack and win 1.5 times your bet! And if you're looking for an even bigger thrill, try out the Double Dark option to reveal doubled cards only after all the others have been played. So what are you waiting for? Place your bets and let's get started! Place your bets, deal the cards, and see if you have what it takes to beat the dealer!

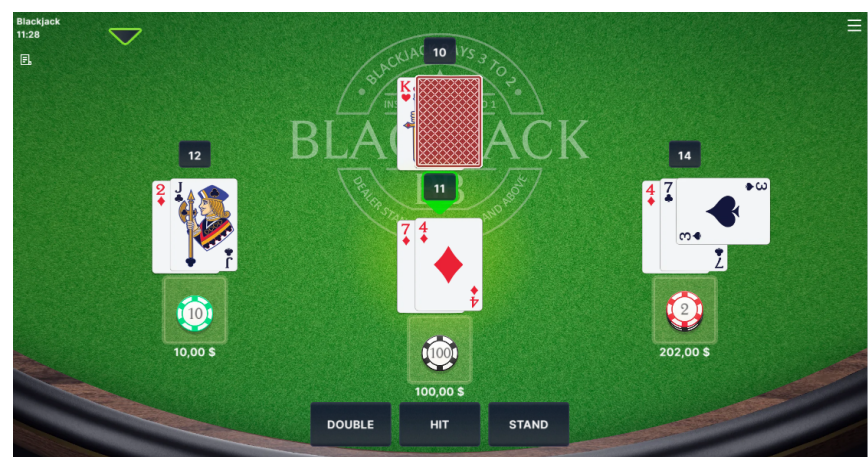

Game Features

WIN

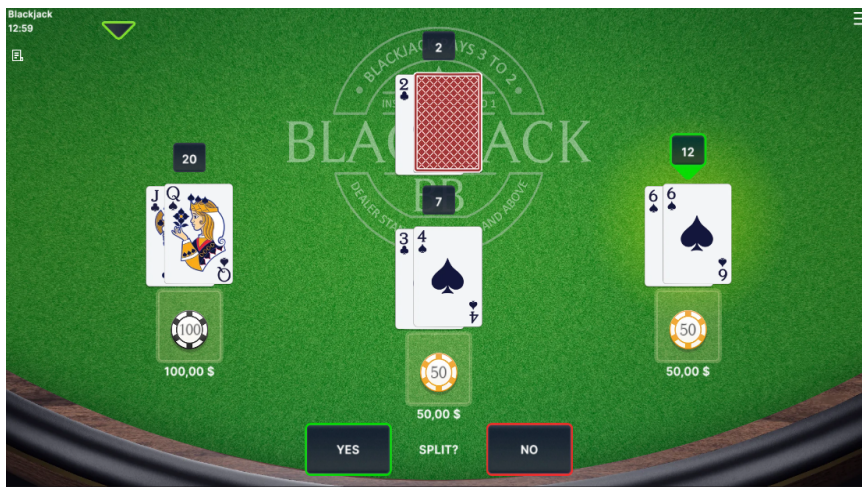

If a player's first two cards' value is **21**, they hit **Blackjack**. **Blackjack** wins any hand, even if the total value of the cards is 21.

Blackjack pays 3:2. The winning hand — 1:1.

DOUBLE

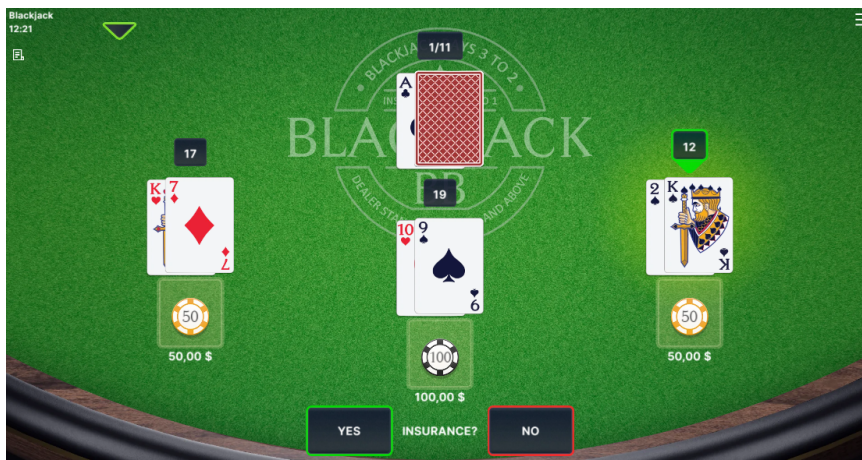

The player can double after the first two cards are dealt. In this case the initial bet will be increased by 100%. The player gets only one additional card.

SPLIT

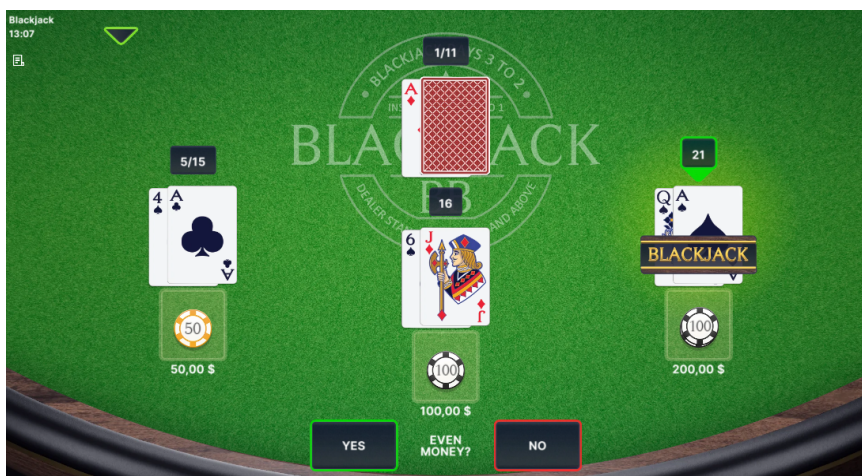

The player can pull apart two cards of the same value, like two sevens, or ten and a Jack, etc. This way, the player gets two hands instead.

The player will get only one additional card per hand if they split two Aces.

INSURANCE

An insurance bet is allowed if the dealer's first card is an Ace. It costs 1/2 original bet's value. The Insurance bet pays 2:1.

EVEN MONEY

If the combination of cards in the player's hand is **Blackjack**, and the dealer's face card is an Ace, the player is offered Even Money.

If the dealer has **Blackjack**, Even Money protects them from "push". Even Money pays at 2:1.
